Brain base

1.1 Purpose

The **base** brain package is the mandatory part of the Domogik butler brain! It will allow you to :

- control Domogik (get the sensor values like temperature, control the lights, ...)
- have some basic interaction with the butler
- do some basic mathematics
- make the butler learn some things!

1.2 Dependencies

There is no dependency.

1.3 Brain configuration

There is no configuration option for this package.

1.4 How can I see the this brain package allow me to do ?

In Domogik administration, just go on the corresponding client and look at the **Brain details** page.
