CHAPTER 1

# Brain base

## Purpose

The **base** brain package is the mandatory part of the Domogik butler brain! It will allow you to :

- control Domogik (get the sensor values like temperature, control the lights, ...)
- have some basic interaction with the butler
- do some basic mathematics
- make the butler learn some things!

## Dependencies

There is no dependency.

## Brain configuration

There is no configuration option for this package.

## How can I see the this brain package allow me to do ?

In Domogik administration, just go on the corresponding client and look at the **Brain details** page.
